# Core and Prime Plans

Your plan covers preventive and comprehensive dental care. Here's how it works.

## Preventive Care

Your plan pays the full cost of covered preventive care, like oral exams and cleanings. You don't have any copays and there's no dollar limit on what your plan pays.

## Comprehensive Care

Your plan pays for covered comprehensive care — like dentures and extractions — up to a set dollar limit (see table below). Once we reach that limit, you pay the full cost for comprehensive care for the rest of the year.

### Plan Summary
